

# vendor/seller guide for the outlaw market

## how to add new items

- first make sure you have read the basic market rules and the rules for item listing
- choose CREATE OFFERS from the main menu (01)

- select first the END-category fitting to your item to list (02a) here you can choose the MAIN-category of the item to list (DRUGS, DIGITAL GOODS or SERVICES) I have selected drugs and
- now you select in field (02b) the fitting UNDER-category of your item (for our example I will take DRUGS-ALL CANNABIS-SEEDS)
- press the APPLY button (03)

- if you have already other listings in the chosen category they will appear here (04) and
- the CREATE NEW PRODUCT button appears (05)
- after double-checking the category you can go on by pressing
- a new window will pop up looking like this....

**Important Information:**  
 This website is different to the usual open source marketplaces!

1. The amounts must be at the end of the title, i.e. XTC,dutch quality, 20x
2. Please do not write any delivery-information into the product-texts! Destinations and delivery costs must be defined in the form!
3. No terms and conditions in the product text. Escrow works in the same way for all vendors. If you are a new vendor, use the filter option (backpack icon) to have your offer shown only to known customers or those who ordered and confirmed the reception already a few times.

If you are in doubt about what to write where, simply do as You think, keep the product paused and send a message to the admin!

SUPER CRITICAL AUTO FEM SEEDS 5 pcs

- please check if your product title fits the rules (06)
- in field (09) you can describe your listing in short but telling words
- make sure not to write about things like shipping and don't ask for FE
- enter your price here (10) and choose the fitting currency

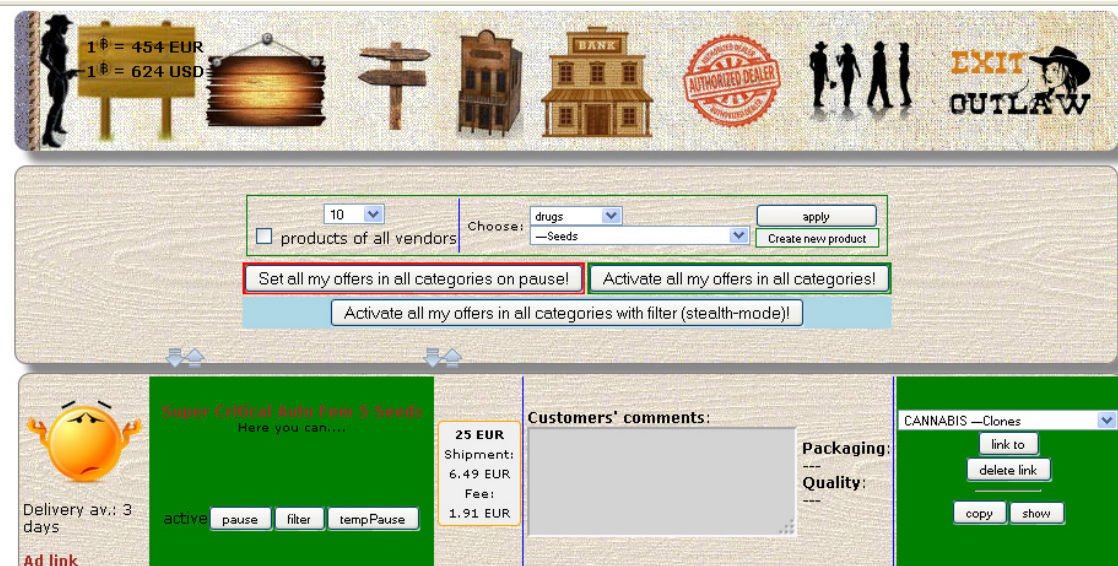

The screenshot shows the 'EXIT OUTLAW' website's product listing interface. At the top, there's a navigation bar with various icons including a person, a sign, a building, a bank, a seal, and silhouettes of people. The main form area includes:

- Price:** A field with '1' and a dropdown menu set to 'EUR' (labeled 11).
- Ships from:** A dropdown menu set to 'DE-GERMANY' (labeled 11).
- Shipping options for selected destinations:** A section with input fields for 'pieces' (min: 1, max: 10), 'shipping fees' (0), and 'Tracking' (0). A double-headed arrow button is below these fields (labeled 14).
- Choose countries with the same shipping fee:** A list box on the left showing 'DE-GERMANY' selected, with other options like 'EU', 'World', 'AD-ANDORRA', etc. (labeled 12).
- Info-Link (start with http:// or leave blank):** A text field (labeled 15).
- Image Upload:** A section with a 'Browse...' button, 'No file selected.' text, and a 'save' button (labeled 16).
- Create new product?** A section with a 'save' button and a '--- back' link (labeled 17 and 18).
- Delete marked countries:** A button on the right side of the shipping options section (labeled 14).

- pick the country you are shipping from (11)
- select the country or countries with the same shipping fees (12)
- in (13) you have to set how many pieces minimum and maximum of the listed item you ship to the chosen country and
- set the shipping fee for normal and if u like to offer tracked shipping
- after confirmation with  $\leftrightarrow$  button the chosen countries will appear in right window (14)
- the countries selected in window (14) will be deleted after pressing the  $\leftrightarrow$  button again
- in field (15) u can add an external link related to your listing
- you may select up to four pictures to show customers your item and make them wanting to buy your stuff :O)
- after browsing to the selected picture file you use the pix-SAVE button in field (16) and you are almost done with your first item listing
- to be sure press the "big" SAVE button (17) to get sure not to lose your work
- to end the procedure click on the BACK sign (18) and it will take you back to the offer list where we did start our lesson
- your new item should be listed now but the background color of the new item is yellow, what means that although the item is shown in the costumers product listing it is not able to be bought. Its temporarily paused witch is useful because when you are of stock the costumers still get aware of the offered item and can be noticed automatically by ENOTE when the desired item is available.

- beside the TEMP.PAUSE there is the option to PAUSE an item totally witch means it is not shown to the customers at all
- the background color of totally paused items is red
- use the ACTIVATE button to make users able to buy your listing
- an active listings background color is green
- you can only edit or delete an listed item when its set to PAUSE or TEMP.PAUSE
- you may add up to two additional categories fitting to your item but that's up to you

- further it is possible to set up an filter for customers where you can for example make sure that only customers with an given number of orders are able to buy
- it is possible to set up promotion codes for one special or all customers
- for setting up filter or promo codes you have to click on the BANK button in the main menu

**1 € = 454 EUR**  
**1 € = 624 USD**

**Promotional code**
